No Whiskey!

Brown's Iron BITTERS is one of the very few tonic medicines that are not composed mostly of alcohol or whiskey, thus becoming a fruitful source of intemperance by promoting a desire for rum.

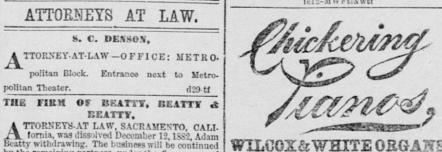

Brown's Iron BITTERS is guaranteed to be a nonexicating stimulant, and it will, in nearly every case, take the place of all liquor, and at the same time absolutely kill the desire for whiskey and other intoxicating beverages.

Rev. G. W. RICE, editor of the American Christian Review, says of Brown's Iron Bitters:

Cin., O., Nov. 16, 1881. Gents :- The foolish wasting of vital force in business, pleasure, and vicious indulgence of our people, makes your preparation a necessity; and if applied, will save hundreds who resort to saloons for temporary recuperation.

Brown's Iron Bitters has been thoroughly tested for dyspepsia, indigestion, biliousness, weakness, debility, overwork, rheumatism, neuralgia, consumption, liver complaints, kidney troubles, &c., and it never fails to render speedy and permanent relief.

At this time an old-time friend, a police officer, called upon me, and during our conversation informed me of the great benefit which he had obtained by the use of Hunt's Remedy, and urged me.

Mr. Waterman says—

San Francisco, February 7, 1883.

Honorable Board Rainroad Commissioners, san Francisco:—Gentlement: Sings our communication to your day before yesterday some things have cecurred to us which we beg you will permit us to present in this.

In the administration of your high office there are many things to be considered. However zealous you may be to arrive at an early decision, your zeal should be well informed and enlightened. The gravity of the situation obliges me to appeal to you for justice. You are the judges, jury and executioners. And I am sure we are not deceived in our faith that you will do nothing that will harm our properties. We will demand nothing which will not not be in full accord with the rights guaranteed by the Constitution. During the efficial term of your immediate predecessors, we made many and most important reductions in our rates (substantially by their report), which are not seeming y fully understood or appreciated. GREAT REDUCTIONS Your predecessors were absolved from further re ductions in the eyes of fair-minded men, by the term of office; and should the four years of the uture be as prosperous and encouraging as the To adjust the rates tarry anke to the roads and the people, as best to be borne, and to develop the business of the roads, is no easy task. Since the road was completed, nearly fourteen (14) years ago, this work of reduction has been constant, and it has demonstrated to men of experience the impossibility of an equitable and fair adjustment of a tariff, of an equitable and fair adjustment of a tariff, without a thorough knowledge of matters entering into and forming important factors relating thereto. I respectfully commend to your attention the able discussion and testimony of Messrs. Adams, Fink, Blanchard and Atkinson, whose opinions, by reason of the profound study given this intricate subject, should have the highest value. Shall the life study of those men of acknowledged ability be outweighed in the balance by the few days' consideration you gentlemen have given this question?

In what difficulties is the country involved, from which you are called upon to extricate it in such

aste? Is the State in a perilous condition? Is there any s'agnation of business? Is not the reverse the fact? From all parts of this State assurances of a high state of prosperity are given.

THERE IS PROFITABLE EMPLOYMENT or all who are willing to work. Wages for all abor, both skilled and unskilled, are higher than or such employments east of the Rocky mountains. As an evidence of this general prosperity, I refer to the coin reserves belonging to the people, and de-posited in the banks of the State.

On January 1, 1883, there was standing to the cedit of depositors in the savings banks over \$55, 90,000, and in the commercial, banks July 1, 1882, ver \$35,000,000—an aggregate of over \$00,000,000. This sum is sufficient, with the present compara-vely low prices of material and labor, to more than uply low prices of material and labor, to more than uply low prices of material and labor, to more than uply during the year ISS2, excluding portions of the heavy work on the mountain sections.

BALANCE SHEET. Your attention is also called to the balance sheet of the earnings and expenses of 1882, now before you. The aggregate dividends declared, if applied o the capital employed, of the Central Pacific Railout, in many places, already two sets of rails. They have all been relaid with ties for a second or third time. And yet we have but a sparse population to support them as compared with roads of the East.

APPEAL FOR JUSTICE. In view of these considerations, I would further appeal to you for justice and protection.

Some of the measures you are proposing would perate as restraining orders and force us to build up barriers, high and wide, to protect a property wealth rich and presperous.

In conclusion, gentlemen, I take the liberty of appending to this, and thereby incorporating into this paper, an article, just handed me, from the Chicago Times of January 31, 1883. The article is a cardial and argumentative and so expenditude of so candid and argumentative and so exhaustive of the subject of public control of railroads that we might safely rest our whole case upon its convincing force. We might also eafely challenge a successful refutation of this forcible presentation of fact and convincing reasoning. As a part, therefore, of this paper, I commend it to your thoughtful attention.

His Hair-Breadth Escapes from Seen and Unseen Foes. [Troy Kansas Chief, January 18, 1883.]

Most of our older citizens will remember Mose Kite (who lived in Petersburg Bottom), the hero of our State's early political history, who was of stalwart build and powerful physique; who in 1858 led a colony of our people to Pike's Peak; who fought the Indians on the plains and was shot through the The following is the second letter of Manager lowne of the Contral Pacific and Southern Pacific Henshall, of the Christian Church at Peters-

I first began to give way. I had a dull feeling, accompanied with a pain in the right side. Dr. Butler, our family physcian, said my liver was out of order, caused by the malaria of the bettoms. I had always had This we have done from the high maximum allowed by law, to the average of two and sixteen hundredths (2.16) cents per ton per mile on freight, and three and six hundredths (3.06) cents per mile for passengers for the whole system, for the year of 1881. And we are confident that it will be below these figures for 1882.

We would ask your caudid consideration to a comparison of these rates with the rates charged by the roads of New South Wales, as per their last report (1880), which are four and sixty-four hundredths (4.64) cents per ton per mile on freight, or more than double that charged by Central Pacific and leased lines, and but forty-four hundredths (44-100) cents per ton passengers than was paid by the cents per mile less on passengers than was paid by the difficulty and great pain. In the party was a Dr. Wakefield, who informed me that I had a bad case of incurable Bright's Disease, and gave me a preparation which might, he said, ease me for a few weeks or months, but that was the best that could be done. RICE'S SURPRISE PARTY.

This excellent company opened a short season at the Metropolitan Theater last night, in the new operatic comedy melange "Pop." When the company was here before it gained ous recalls. It would be hard to conceive of three hours of more unrestrained mirth and merriment than were enjoyed by those who attended the performance last night. The company consists of twelve artists, each one performing his or her part in a most creditble manner. Where the success of each is so marked as on last evening, it is difficult in a brief notice to properly set forth the merits of either; but some of them deserve a special mention. John A. Mackay is the peer of any comedian who ever appeared upon the boards at the Metropolitar, and his imita-tions fully equal those of the best on any stage. His every movement was mirth-provoking, and he kept the audience in a roar of laughter whenever he appeared. His drollery is simply inimitable. Miss Kate Castleman took the audience by storm in "For Goodness Sake Don't Say I Teld You," in which she made some excellent local hits. She is personally attractive, and full of life and piquancy. Miss Irene Perry is one of the most versatile and pleasing artists seen upon the boards of the Metropolitan in a long She sings well, is very attractive in face and form, and is possessed of no slight dramatic talent. Miss Lillie Grubb is also an excellent artist, and so is Miss May Stem-bler. The former last night filled all of her own parts and also another, on secount of the indisposition of George K. Fortescue, who was suffering from severe cold and hoarseness. That gentleman, although he could scarcely speak above a whisper, gave a hint of what he will be the a whisper, gave a staturday night. The query goes up from the court of the misery of the hint of what he will be when he regains his voice. D. Gorman, as Knous, proved himself an excellent German specialist. On the whole the performance was an excellent one, and deserves a liberal patronage. The same company will appear this and to-morrow

IMPORTED DISCOURTESY.—Had the Assembly known, what it is now probably aware of, it certainly would have chosen a Sergeant at Arms possessed of the first qualification necessary for that officer—common politeness. The lack of it in the present incumbent may be an infirmity; it is none the less an infliction upon the public whose employe he is. His lack of politeness does not, however, extend to the Assislant Sergeant-at-Arms, although the atmosphere of the principal. It appeared by the testimony of the complainant that Skaggs went into Wilson's store and demanded that a deed be made to him for a certain piece of property which he claimed Wilson had agreed to sell to him for a certain consideration. Wilson refused to do as requested, and told Skaggs he did not wish to talk to him. Skaggs said, "I'll make you talk to me," at the same time drawing a pistol. Wilson walked up to the man and took the pistol away, and struck him a souple of times.
